

## Have you been to **SafetyStreet** ?

If you have already seen the 'Safety Street' CD-ROM you will already know that Connie, Ann and Tam have been very busy over the last few years helping JRSOs promote road safety in their schools.

Every school with JRSOs should have at least one copy of the CD-ROM, and it is usually looked after by you, the JRSOs, or the adult who helps you. Ask your teacher if you haven't seen a copy. If you don't know about 'Safety Street', you've got loads to catch up on. Here's the low down....

The CD-ROM was made with the help of JRSOs, and includes lots of short road safety games which can be done by everyone from Primary One to Primary Seven. The aim of the CD is to win enough points to claim your free trip on Ann Alien's Spaceship where you can play your free game of 'Space Blast' or have a go on the Music Maker.

As JRSO for your school, it is up to you to make sure that every class gets a go at 'Safety Street'. You can ask your teacher if you can take it to each different class for them to have for a couple of weeks. This will give everybody a chance to use it. Or you could ask a teacher to help you download it onto the computer hard drive in each classroom.

They'll help you however they can...
